Awards: Best Capstone/Thesis, Most Outstanding Intern, Research Participant Awardee, Service Awardee

RELEVANT EXPERIENCE

OJT / Web Developer — City Government of Makati | Makati City, Philippines Jan 2026 – Mar 2026

- Developed and maintained web-based systems for internal government operations.
- Focused on backend development, database management, and system functionality.
- Supported the improvement and digitalization of internal government processes through functional web-based systems.

PROJECTS

JCash Banking App | TESDA Portfolio Project

- Developed a banking application using Java and Spring Boot with JDBC and MySQL.
- Worked on backend logic, database connectivity, API testing with Postman, and source control with GitHub.
- Produced a functional banking application with organized and testable backend components.

Academic Prospectus: Curriculum Tracking and Grade Management System with Data Visualization | Capstone Project

- Developed a curriculum tracking and automated grade management system.
- Managed system development and project coordination as Project Manager.
- Provided a centralized platform for curriculum and academic grade information.

DACS (Document Administration & Control System) | City Government of Makati / Operational System

- Developed a digital document administration and tracking system for internal office operations.
- Handled backend development, database management, and document tracking functionalities for an intranet-based system.
- Replaced manual Excel-based tracking with a centralized digital process for more organized document management.

Business Website | Freelance Web Developer | International Client

- Designed and developed a responsive business website.
- Handled website development and responsive layout implementation.
- Delivered a functional website accessible across different screen sizes.

Web-Based High Value Crop Production Data Management & Analytics System | Capstone Project

- Developed a PHP/MySQL agricultural data management and analytics system.
- Handled farmer, farmland, crop production, inventory, reporting, and analytics functions.
- Improved organization, accessibility, and efficiency of agricultural data management.

Web-Based Fisherfolk Profiling System | Capstone Project

- Developed a PHP/MySQL fisherfolk profiling system.
- Handled registration, RSBSA enrollment, boat registration, records, reports, and user management.
- Centralized fisherfolk records into an organized digital platform.

Online Record Management and Tracking System | Capstone Project

- Developed a PHP/MySQL Registrar record management and tracking system.
- Handled academic records, enrollment, grade submission, document requests, payments, tracking, and release workflows.
- Centralized Registrar transactions and improved organization of academic record requests.

OTHER PROJECTS & ACHIEVEMENTS

- CodeBuddyPH – Personal AI-Assisted Web IDE
- SAKAMART – LIKHAMON Ideathon 2024 Champion
- ZONA AI – LIKHAMON Ideathon 2025 Best Pitch Deck
- ALAGA's Quest – Game Development 2025 1st Place
- INSPIRE 2025 – 3rd Place Overall, 3rd Best Presenter, 3rd Best IEC
- Best Output Presenter – The Digital Era Symposium
- LIKHAMON PROMAX 2026 – Research Congress
- TECHSO/TECHNO Leadership – Class Mayor, Treasurer, 2nd Vice President
